### Some Tremendous Sacrifices in La=! dies' Suits, Wash Dresses and Shirt Waists==

# PERRY'S.

We begin tomorrow what will mean the final clearing of the Ladies' Tailor-made Wool and Wash Suits, and the Dressmaker-made Organdies-final clearing of Skirts and Waists.

It will be an occasion worth taking note of-because "when the last horn blows" we sever every price tie that holds

stock and season together.

We regard such a sale as this of mutual benefit. What we offer is of great importance to you. The way we offer it is equivalent to our paying you to relieve us. But our period of selling ends when yours for wearing is only fairly beginning. We don't believe we ever cut deeper than we have in this instance. We are sure we never cut into stronger values—into choicer styles.

#### Wool Suits.

We make just three lots of these we shall sacrifice-and they are three bargains. Must be new Suits, for we have none of any other season than this. Must be exclusive styles, for such comprised almost our entire stock.

### Here's the pith of what we said yesterday.

We repeat the offerings to be certain that you shall know them. Such bargain selling is the result of our determination to dispose of surplus stocks, and nearly every price is shorn of all profits. That leaves us doing business for glory, and doing business for glory makes friends ) nearly always.

Well, we should smile! Saturday was the biggest day ever recorded in the house, and buyers admit that it seems a crying shame to sell such fine Clothing so ridiculously low, but are snapping them up just the same. Why shouldn't the other Clothiers stop doing any business for awhile? The public cannot be blamed for spending its money where they can get the most for it. Even the merchants admit (if you can read between the lines in their ads.) that we have them on the "hip." We have marked the stock at exactly one-half the prices the Continental asked, and the figures are still on the Suits.

### THE REPORT APPROVED.

Engineer Commissioner's Disapprova of Air Motor Indorsed. Following close upon Engineer Commissioner Black's adverse report upon the air motor as a motive power for the Eckington railroad comes the official disapprova of the board of Commissioners. At 11 o'clock this morning Engineer Commissioner Black sent word to his colleagues to meet him in board session. It was a

special meeting, called to consider the re-

port upon the air motors recently tried by the Eckington road, a full copy of which appeared in The Star of Saturday. The appeared in The Star of Saturday. The paper was discussed in a general way and unanimously approved.

Secretary Tindall was notified to communicate with Receiver Schoepf and inquire if his company desires to be heard before the Commissioners take further schon. The Commissioners are appearedly. action. The Commissioners are apparently tired of the long delay. They have about agreed not to grant the company any further extension in which to experiment. They stated, however, that they would approve without delay an application for an underground system.

Pension Agent Leland.

Immediately after setting aside the order of President Cleveland to consolidate a number of the pension agencies President McKinley sent to the Senate the nomination of Cyrus Leland for pension agent at Topeka, Kan., which agency was to have been wiped out, and the Senate confirmed the nomination late Saturday afternoon. Mr. Leland has been a prominent figure in the politics of the sunflower state for nearly forty years. He enlisted as a member of the 4th Kansas Regiment in August, 1861. He re-enlisted in the 10th Kansas and served three years and a half, half of the time as aid-de-camp on the staff of Gen. Ewing. He was elected to the Kansas legislature while in the field, and in January, 1865, resigned his commission in the army to take his seat in the lower house. He had been wounded at the terrible battle of Prairie Grove in December, 1862, and this was one of his reasons for leaving the service, where he had been distinguished for his gallantry.

He was deputy collector of internal revenue for several years following the close of the war, and during the Harrison administration was collector for the district of Kansas. He has been a member of the board of county commissioners of Doniconfirmed the nomination late Saturday

of Kansas. He has been a member of the board of county commissioners of Doniphan county for twenty years, most of the time the chairman. Last winter the populist legislature tried to pass a law that would legislate him out of office, but failed. He was chairman of the republican state central committee for a number of years, was a delegate to all the national republican conventions for twenty years and has been a member of the national republican committee for thirteen years.

Mr. Leland and President McKinley are friends of long standing, and he might have had a good foreign mission, but refused every offer that would make it necessary for him to leave Kansas.

Convicted and Remanded.

Frank Jenkins, William Bowie and William Bowser, young colored men, were convicted in Criminal Court No. 1 today of robbing the store of Joseph Rosenbaum of 38 worth of cloth the 31st of last March.
Their counsel gave notice of a motion for a new trial, and Judge Cole remanded them to jail to await sentence.

The rain was a perfect deluge. Several women fainted and acveral young men with an acute sense of personal preservation took life preservers from the racks. Fortunately this was not done on the saloon deck, which was crowded with women and children, as a panic could hardly have been averted. Capt.
